

Key aspects of role:

- Management of shared regional library management systems
- Leadership and co-ordination of regional network for resource/knowledge-sharing
- Strategic oversight and technical advice in relation to e-resources procurement and provision
- Ensuring regional delivery and implementation of nationally-funded knowledge systems and resources
- Helping to promote awareness of library knowledge services/resources available in the region

Impact of role:

Cost-effective, equitable and easy access to systems and resources due to over-sight by Knowledge Systems Manager

The Knowledge Systems Manager is essential to enable the region to deliver streamlined library and knowledge services to benefit health care staff and learners.
