

Technology Enhanced Learning (TEL) Manager/Co-ordinator

Health Education England

Key aspects of role:

- Strategic development and promotion of technology enhanced learning (e-learning) for the organisation
- Planning and delivering technology enhanced learning for the organisation
- Liaising with Subject Matter Experts (SMEs) in the creation and modification of e-learning courses and content.
- Supporting those wishing to access technology enhanced learning
- Administering e-learning systems
- Reporting on use of technology enhanced learning within the organisation

Impact of role:

Bespoke e-learning package designed and created by specialist librarian saves Trust money.

The specialist librarian designed and created an e-learning programme to enable nurses to understand how they can use Patient Group Directions (PGDs) to help improve their service and to meet the legal requirements when a medicine is supplied or administered to patients by a PGD.

"With this course being developed in-house it has also meant that the content of the package could be updated more easily and quickly."
